2024 UbitEx EXCHANGE ROADSHOW PLAN

- ◆ In 2024, in order to promote the founding concept of UbitEx, UbitEx will conduct a global roadshow and hold a launch conference, including Silicon Valley, London, Singapore, Kuala Lumpur, Hong Kong, Dubai and other key financial zones, so that everyone can participate in this financial feast and get the universal dividend brought by UbitEx.

UbitEx'S FUTURE ECOLOGICAL OUTLOOK

Build an AI quantitative private equity fund

UbitEx Will launch a number of dollar quantitative private equity funds to provide excellent digital asset management solutions for millions to millions of institutional investors, achieving risk-adjusted returns beyond traditional.

Launch of encrypted bank cards

To further promote the popularity of crypto assets in daily life, UbitEx will work with global payment giants to launch encrypted physical bank cards.

Release of UbitEx ETF in America

UbitEx Plans to launch its exchange-traded fund (ETF) in the United States to integrate advanced AI quantitative strategies into traditional financial markets. The ETF will become the preferred tool for investors to acquire diversified intelligent allocation in the digital asset sector, providing excellent capital appreciation opportunities for global investors.

Public chain ecological fund

UbitEx Will set up a public chain ecological fund focusing on the Web ecosystem in Abu Dhabi, set up a UbitEx laboratory, attract geeks and technical talents from all over the world to build the UbitEx ecological public chain based on UbitEx, and transfer the ecological data of UbitEx to the public chain network. After the completion of the research and development of the public chain, a variety of innovative blockchain projects based on the public chain, so as to provide more diversified revenue channels for the global inclusive public.

UbitExFUTUREECOLOGY

- ◆ Lending (a combination of cryptocurrencies and traditional finance)
- ◆ Launchpad (Project incubation platform)
- ◆ Cryptocurrency stock trading (crypto token stock trading linked to the ETF)
- ◆ Public chain
- ◆ Cryptocurrency payment system
- ◆ UbitEx college

- ◆ In 2024-2030, UbitEx is expected to make the pace of success in the world, the global cumulative users reached one hundred million people, and based on UbitEx ecological fund of thousands of popular block chain project, leverage UbitEx ecological hundreds of billions of dollars market value, power UB tokens completed 500-5000 times rising trend, power UbitEx become global intelligent compliance unicorn trading platform.

ECOLOGICAL 01: LENDING

- ◆ UbitEx Through the self-developed venture capital reserve mechanism and automated process smart contract, through the use of blockchain technology, we can provide financial services to billions of people around the world who cannot enter the traditional banking system. Cryptocurrency lending simplifies the lending process, allowing anyone to access lending services, regardless of Internet connectivity, regardless of their location or credit history.
- ◆ At present, the global cryptocurrency lending market has reached 100 billion US dollars. UbitEx will complete P2P and CDP converged lending agreements with BendDAO and MakerDAO through the advantages of its own platform and the operation of savings funds.

Loan documents will take UB as the settlement standard, and greatly increase the liquidity and pledge value of UB.

ECOLOGICAL 02: LAUNCHPAD

- ◆ UbitEx The crypto asset trading platform has launched different Launch strategies to meet the launch needs of different types of projects, including traditional IEO, gamified IGO, lock-up ILO and Dutch auction token issuance methods.
- ◆ In addition, we have introduced a Fair Launch template of Inscription Assets and included a range of Fair Launch strategies to keep our platform ecosystem alive.

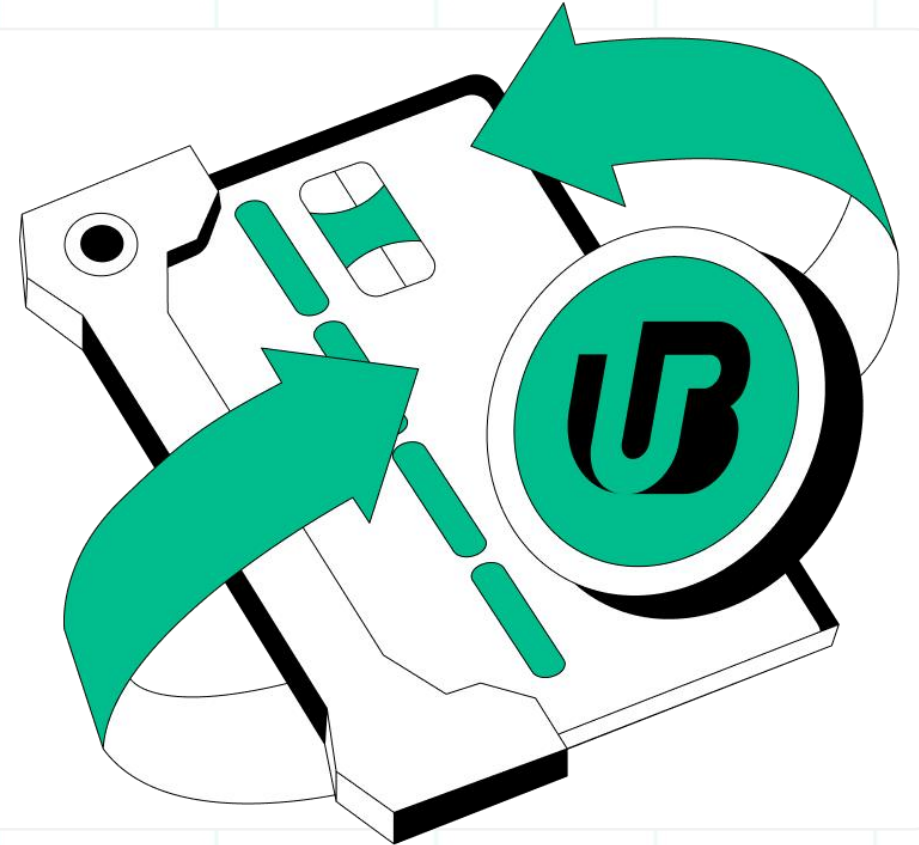

The above Launch strategy scheme takes UB as the settlement standard, which greatly increases the liquidity and value-added value of UB.

ECOLOGICAL 03: STOCKS

- ◆ UbitEx At present, we have established strategic partnerships with some traditional financial institution partners to provide users with a comprehensive global listed single stock trading channel- -including cash stocks and single stock contract for difference.
- ◆ Orders are transmitted to a tier I cash clearing bank according to the DMA. CFD transaction execution can be provided electronically through a range of platforms, APIs, or voice brokerage through our trading desk.

ECOLOGICAL 04: STOCKS

- ◆ UbitEx Chain The UbitEx develops an open source commercial application public chain based on efficiency, applications, developers, and participants.
- ◆ UbitEx Chain Meet an independent digital economic world of the social and economic governance system, is an open, fair, transparent and developed blockchain infrastructure, using BFT + POS consensus system, random proposer election system, a block confirmation, flexible, concise and efficient application interface, can quickly build a variety of distributed business application services.
- ◆ In the various commercial application services in the UbitEx Chain public chain network, UB, as the only ecological token and governance token, will be applied to the circulation, payment, settlement, destruction, voting, governance of the whole ecological application, and will have strong liquidity and value-added attributes.

ECOLOGICAL 05: CRYPTOCURRENCY PAYMENT

- ◆ A key role of cryptocurrencies is to allow both sides to make decentralized and trust-free money transfers. With the development of blockchain, more and more innovative payment methods are being created and tested.
- ◆ While decentralized payments can be made through cryptocurrency or USDT transfers, they can still be done better — for cheaper, faster transactions, scheduled transfers, conditional transfers, standardized invoice formats, and more.
- ◆ UbitEx Are studying changing the way we process payments by reset payments to flow patterns rather than familiar transactions. The possibility of new payments will generate a lot of potential currency applications. The new payment can be imagined as a "payasyouuse" with more refinement and higher accuracy (a model of payment by actual use).
- ◆ In UbitEx's new cryptocurrency payment method, UB token will be used as an important payment token and fee deduction token, that is, cryptocurrency payment through UbitEx, and UB will be used as a transit token for other cryptocurrencies and legal tender currencies. At the same time, the UB will be burned as a handling fee during the payment process. Therefore, UB has strong conversion properties and destruction properties.

ECOLOGICAL 06: UbitEx COLLEGE

- ◆ UbitEx UbitEx College will be built, committed to exploring cutting-edge technologies, promoting virtual currency, stocks and other financial products into the lives of hundreds of millions of users around the world.
- ◆ UbitEx The College will regularly provide users with online and offline trading / teaching / training / guidance of derivatives trading, spot trading and AI automatic revenue products, so as to help users to understand the trading products of UbitEx platform more quickly, so as to better participate in and obtain diversified profits.

Example

pledge BTC worth 5000 USDT and UB worth 5000 USDT

Suppose the current price of UB is 1 USDT / piece

Assuming that the BTC rises by 10% after the expiration, the UB price remains unchanged

15 days due redemption day earnings

Earn:

$$10000 \times 0.5\% \times 15 + 5000 \times 10\% = 1250 \text{ USDT (1250 STUB)}$$

30 days due redemption day earnings to

Earn:

$$10000 \times 0.6\% \times 30 + 5000 \times 10\% = 2300 \text{ USDT (2300 STUB)}$$
